NCCP 00203 · clinician draft

Docetaxel alone for previously treated non-small-cell lung cancer

Treatment scope · NCCP 00203 NCCP 00203a: locally advanced or metastatic non-small-cell lung cancer after failure of prior chemotherapy. This is docetaxel alone; a platinum or other partner needs its own regimen.

Supportive prescription draft for review. This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.
