BASELINE → TREATMENT → FOLLOW-UP

My tests and checks

Required safety checks are distinct from individual response imaging and follow-up. No routine tumour-marker interval is specified.

Check	Before treatment	Treatment days	Between doses	Next cycle	After treatment
Treatment	Confirm lung indication	Gemcitabine Days 1/8/15	No dose Week 4	Repeat only if appropriate	Agree next plan
Blood tests	FBC, kidneys, liver	FBC before every dose	Extra tests if unwell	Renal/liver before cycle	Follow abnormalities
Other checks	Audiometry/CrCl if indicated	Review symptoms	Call when unwell	Review benefit and toxicity	Individual scans/follow-up

The team arranges and reviews tests. This guide shows expected timing; it does not record completed appointments. NCCP 00284 v5 · official regimen

THE WHOLE TREATMENT JOURNEY

Gemcitabine alone · non-small-cell lung cancer: treatment and checks

Locally advanced or metastatic NSCLC in older adults or people with ECOG2

Gemcitabine is given on Days 1, 8 and 15. Week 4 has no planned dose. Each cycle lasts 28 days. For lung cancer there is no fixed six-cycle limit in this source: continue only while the team considers treatment helpful and tolerable.

Read from left to right. Columns show stages, not equal lengths of time. This is a general plan: no dates or personal information are needed. Your team confirms which steps apply and arranges appointments.

Treatment, tests and reviews across the course

Care / check	Before treatment	Treatment days	Between doses	Next cycle	After treatment
Treatment NCCP 00284	Confirm lung indication	Gemcitabine Days 1/8/15	No dose Week 4	Repeat only if appropriate	Agree next plan
Blood tests NCCP 00284	FBC, kidneys, liver	FBC before every dose	Extra tests if unwell	Renal/liver before cycle	Follow abnormalities
Other checks NCCP 00284	Audiometry/CrCl if indicated	Review symptoms	Call when unwell	Review benefit and toxicity	Individual scans/follow-up

What each check is for

1 Prepare

Before first dose

Gemcitabine aims to control lung cancer and its symptoms. Treatment is reviewed against side effects, your health and your priorities; benefit is not guaranteed.

Ask / act: Confirm aim, prescription, tests and contacts.

Sources: NCCP 00284

2 Review

Before each dose

Check treatment remains appropriate

Ask / act: Report symptoms and confirm blood results before dosing.

Sources: NCCP 00284

3 Next plan

At agreed review points

Assess benefit and recovery

Ask / act: Confirm scan and follow-up dates with the team.

Sources: NCCP 00284

At the next review, ask

- Which treatment phase am I in, and what happens next?
- Which test is expected next, who arranges it, and who explains the result?
- Who should I contact if an expected appointment has not arrived?

This map does not show whether a test has been ordered, booked or completed. Do not wait for a scheduled test if you develop new symptoms.
