SACTCHECK · REGIMEN-SPECIFIC SACT CONSENT

PROTOTYPE · GOVERNANCE REVIEW REQUIRED

Vismodegib for advanced basal cell skin cancer

NCCP 00236: symptomatic metastatic basal cell carcinoma, or locally advanced basal cell carcinoma unsuitable for surgery or radiotherapy. · NCCP 00236 · version 3 · 28-day cycle

Patient name	DOB	Hospital no.	Date

Treatment context
Vismodegib is used to help control advanced basal cell skin cancer when the source-specific criteria are met. Discuss whether the aim is shrinkage, symptom relief, longer disease control or another agreed goal, and how surgery or radiotherapy has been considered.

Schedule
Take vismodegib once every day at the same time, continuously while the team considers it beneficial and tolerable. A 28-day calendar organises the four-week review; it is not a planned seven-day break or a fixed number of courses.

1. TREATMENT DISCUSSION

- ☐ Purpose, expected benefit and alternatives explained
- ☐ Indication, medicines, sequence and duration confirmed
- ☐ Blood tests and any individually indicated heart checks discussed
- ☐ Support medicines and phase changes explained
- ☐ Fertility, contraception and breastfeeding discussed where relevant
- ☐ Common, serious and lasting drug-specific risks discussed below
- ☐ Urgent symptoms and local contact details confirmed

2. REGIMEN / AGENT-SPECIFIC MATERIAL RISKS

Vismodegib
ORAL TARGETED CAPSULE

- ☐ Muscle spasms and muscle/joint pain
- ☐ Altered or lost taste and poor appetite
- ☐ Weight loss and fatigue
- ☐ Hair loss
- ☐ Nausea, diarrhoea or constipation
- ☐ Rare severe skin reactions
- ☐ Severe harm to pregnancy; prolonged prevention requirements

Discuss the exact diagnosis, treatment intent, expected benefits and uncertainty, suitable alternatives, the regimen-specific risks and monitoring, fertility and pregnancy precautions, and practical burdens. Confirm the treatment phase and route. This guide supports the conversation and does not replace individual consent.

Individual aim / benefit, alternatives, material risks and questions:

3. CONSENT CONFIRMATION

- ☐ Expected benefit, important risks and reasonable alternatives discussed
- ☐ Patient questions invited and answered; patient-specific material risks / priorities considered
- ☐ Emergency contact / toxicity advice and written information offered where appropriate
- ☐ Patient understands consent is voluntary and may be withdrawn

Patient / person giving consent _____ Date _____

Clinician obtaining consent _____ Date _____

Prototype only. This one-page form is a regimen-specific consent aid and requires formal governance, consultant and oncology-pharmacy review before clinical use. The current NCCP regimen, local/national consent policy, current medicine information, patient-specific material risks and clinical judgement remain authoritative.
Base regimen: NCCP 00236 v3.
