NCCP 00563 · clinician draft

# Encorafenib and binimetinib for advanced BRAF-mutated melanoma

**Your diagnosis and treatment setting** NCCP 00563: adults with advanced unresectable or metastatic melanoma with a BRAF V600 mutation.

**Supportive prescription draft for review.** This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

## Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.

- **Continuous oral treatment** — Moderate to high (oral)
  Encorafenib + Binimetinib
