NCCP 00812 · clinician draft

Cemiplimab for advanced cutaneous squamous cell cancer

Your diagnosis and treatment setting NCCP 00812b: metastatic or locally advanced cutaneous squamous cell carcinoma when curative surgery or curative radiotherapy is not appropriate. This guide covers skin SCC, not the separate cervical-cancer indication.

Supportive prescription draft for review. This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.
