National Cancer Control Programme (NCCP) 00830 · clinician draft

Relugolix: daily hormone treatment

> **Supportive prescription draft for review.** This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.

- **Loading dose, then once daily** — Minimal to low (oral)
