NCCP 00334 · clinician draft

Temozolomide with radiotherapy, then adjuvant temozolomide

Temozolomide + RT Adults with newly diagnosed glioblastoma under NCCP 00334. Use the plan matched to your diagnosis and phase; do not borrow another glioma schedule.

Supportive prescription draft for review. This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.

- **Concurrent daily temozolomide with radiotherapy** — Moderate to high (oral)
  Temozolomide
- **Adjuvant temozolomide Days 1–5 every 28 days** — Moderate to high (oral)
  Temozolomide
