NCCP 00342 · clinician draft

Temozolomide for recurrent or progressive glioma

Temozolomide · recurrent glioma Adults with grade III or IV malignant glioma recurring or progressing after standard therapy under NCCP 00342. Use the plan matched to your diagnosis and phase; do not borrow another glioma schedule.

Supportive prescription draft for review. This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.

- **Temozolomide for recurrent or progressive glioma** — Moderate to high (oral)
  Temozolomide
