SACTCHECK · REGIMEN-SPECIFIC SACT CONSENT

Nintedanib · continuation

PROTOTYPE · GOVERNANCE REVIEW REQUIRED

Adenocarcinoma NSCLC · nintedanib-only continuation · NCCP 00372 · version 6 · 28-day cycle

Patient name	DOB	Hospital no.	Date

Treatment context
To continue controlling lung cancer after combination treatment, while benefit continues and side effects remain acceptable.

Schedule
Take the prescribed nintedanib dose twice daily every day. Reviews are organised in 28-day cycles; there is no planned tablet-free week. This phase starts only after at least 4 combination cycles and team approval.

1. TREATMENT DISCUSSION

- ☐ Purpose, expected benefit and alternatives explained
- ☐ Indication, medicines, sequence and duration confirmed
- ☐ Blood tests and any individually indicated heart checks discussed
- ☐ Support medicines and phase changes explained
- ☐ Fertility, contraception and breastfeeding discussed where relevant
- ☐ Common, serious and lasting drug-specific risks discussed below
- ☐ Urgent symptoms and local contact details confirmed

2. REGIMEN / AGENT-SPECIFIC MATERIAL RISKS

Nintedanib
ORAL ANGIOKINASE INHIBITOR

- ☐ Diarrhoea, nausea and vomiting
- ☐ Liver injury
- ☐ Bleeding, blood clots and high blood pressure
- ☐ Kidney injury or protein in urine
- ☐ Rare bowel perforation, ischaemic colitis or PRES

Discuss the goal, alternatives, important risks for you, fertility/pregnancy prevention, practical support and what would prompt changing or stopping treatment.

Individual aim / benefit, alternatives, material risks and questions:

3. CONSENT CONFIRMATION

- ☐ Expected benefit, important risks and reasonable alternatives discussed
- ☐ Patient questions invited and answered; patient-specific material risks / priorities considered
- ☐ Emergency contact / toxicity advice and written information offered where appropriate
- ☐ Patient understands consent is voluntary and may be withdrawn

Patient / person giving consent _____ Date _____

Clinician obtaining consent _____ Date _____

Prototype only. This one-page form is a regimen-specific consent aid and requires formal governance, consultant and oncology-pharmacy review before clinical use. The current NCCP regimen, local/national consent policy, current medicine information, patient-specific material risks and clinical judgement remain authoritative.
Base regimen: NCCP 00372 v6.
