NCCP 00318 · clinician draft

Pemetrexed + Carboplatin

Which treatment this guide covers This guide covers pemetrexed and carboplatin chemotherapy. It does not include an immunotherapy medicine. If nivolumab, pembrolizumab or another medicine is also prescribed, obtain its separate regimen, consent, monitoring and emergency instructions. Mesothelioma and NSCLC have different aims and evidence; ask which indication is on your prescription.

Supportive prescription draft for review. This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.
