SACTCHECK · TREATMENT PASSPORT

Adjuvant abemaciclib + endocrine therapy

A record of what you experience

One cycle per page. Each medicine has its own symptom table. Mark the worst symptoms since your last review, when they occurred and what they stopped you doing. Overlapping symptoms can be recorded under more than one medicine; you do not have to identify the cause.

These are patient-language severity prompts, not a validated questionnaire or a formal CTCAE grading tool. Your team assigns the clinical grade. Serious symptoms override the columns: call without waiting to decide a severity level.

Abemaciclib is taken twice daily continuously, with endocrine treatment, for up to two years if appropriate. A 28-day block is shown for orientation; there is no planned tablet-free week. Endocrine treatment usually continues longer.

The four pages are reusable recording sheets, not a prescribed four-cycle course. Ask for additional sheets as needed.

Emergency: 112 / 999. Severe breathing difficulty, collapse, seizure or severe chest pain needs emergency help.

Contact oncology immediately for temperature ≥37.5°C or ≤36°C, shivering or suddenly feeling unwell, even with a normal temperature. Follow your own hospital's instructions. If you cannot reach the team, seek urgent medical assessment.

NCCP 00619 V4A · ONE CYCLE, ONE PAGE

Adjuvant abemaciclib + endocrine therapy

Cycle number: _____ Start date: _____ Next review: _____

Abemaciclib · CDK4/6 inhibitor

Symptom	None	Mild	Moderate / call	Severe / urgent	Emergency signs
Diarrhoea	☐ Usual pattern	☐ Up to 3 extra stools above normal	☐ 4–6 extra stools/day or at night: call	☐ 7+ extra stools/day or dehydration: urgent review	☐ Collapse / severe dehydration: 112/999
Nausea	☐ None	☐ Queasy but eating and drinking	☐ Intake reduced: contact the team	☐ Unable to maintain intake: urgent review	☐ Collapse / severe dehydration: 112/999
Fatigue	☐ Usual energy	☐ Tiredness improves with rest	☐ Rest does not help; usual tasks affected: call	☐ Self-care difficult: urgent review	☐ Collapse: 112/999

Your endocrine treatment · Hormone-directed treatment

Symptom	None	Mild	Moderate / call	Severe / urgent	Emergency signs
Muscle / joint pain	☐ None	☐ Mild aches; normal activity	☐ Pain limits tasks / sleep: call	☐ Pain limits self-care: urgent review	☐ Sudden severe deterioration: emergency help
Fatigue	☐ Usual energy	☐ Tiredness improves with rest	☐ Rest does not help; usual tasks affected: call	☐ Self-care difficult: urgent review	☐ Collapse: 112/999

Dates / doses missed or changed / symptoms affecting daily life / questions:

Red flags override the table. Fever, shivers, suddenly unwell, chest symptoms or inability to drink: seek prompt advice. Severe breathing difficulty, collapse or severe chest pain: 112 / 999.
