SACTCHECK · REGIMEN-SPECIFIC SACT CONSENT

Weekly cetuximab

PROTOTYPE · GOVERNANCE REVIEW REQUIRED

Selected metastatic colorectal cancer; or locally advanced head/neck cancer with radiotherapy when platinum is unsuitable · NCCP 00207 · version 6 · 7-day cycle

Patient name	DOB	Hospital no.	Date

Treatment context
For selected bowel cancer that has spread, cetuximab aims to control the cancer after previous treatments. For selected locally advanced head-and-neck cancer when platinum chemotherapy is unsuitable, it is combined with radiotherapy. Your team confirms which pathway applies.

Schedule
One larger first infusion is followed by weekly infusions. Bowel-cancer treatment continues while helping and tolerated. For head-and-neck treatment, cetuximab starts one week before radiotherapy and continues until radiation treatment finishes.

1. TREATMENT DISCUSSION

- ☐ Purpose, expected benefit and alternatives explained
- ☐ Indication, medicines, sequence and duration confirmed
- ☐ Blood tests and any individually indicated heart checks discussed
- ☐ Support medicines and phase changes explained
- ☐ Fertility, contraception and breastfeeding discussed where relevant
- ☐ Common, serious and lasting drug-specific risks discussed below
- ☐ Urgent symptoms and local contact details confirmed

2. REGIMEN / AGENT-SPECIFIC MATERIAL RISKS

Cetuximab
EGFR-TARGETED ANTIBODY

- ☐ Rash, dry skin, cracks and sore nails
- ☐ Eye inflammation or corneal injury
- ☐ Low magnesium, calcium or potassium
- ☐ Diarrhoea, dehydration and kidney problems
- ☐ Infusion reaction; rare serious lung or skin effects

Discuss the treatment aim, alternatives, expected benefit, serious and lasting risks, fertility/pregnancy precautions and the contact plan. Confirm RAS selection for colorectal treatment, infusion premedication, skin care and post-treatment mineral checks. Explain the separate radiotherapy indication and swallowing/skin support.

Individual aim / benefit, alternatives, material risks and questions:

3. CONSENT CONFIRMATION

- ☐ Expected benefit, important risks and reasonable alternatives discussed
- ☐ Patient questions invited and answered; patient-specific material risks / priorities considered
- ☐ Emergency contact / toxicity advice and written information offered where appropriate
- ☐ Patient understands consent is voluntary and may be withdrawn

Patient / person giving consent _____ Date _____

Clinician obtaining consent _____ Date _____

Prototype only. This one-page form is a regimen-specific consent aid and requires formal governance, consultant and oncology-pharmacy review before clinical use. The current NCCP regimen, local/national consent policy, current medicine information, patient-specific material risks and clinical judgement remain authoritative.
Base regimen: NCCP 00207 v6.
