Pemetrexed + carboplatin

NCCP 00318 - Set-up and treatment plan

My treatment plan

Treatment purpose / goals:

My oncology SOS number:

My treating team / hospital:

Medicines: Pemetrexed - Carboplatin

Schedule to confirm with my team

Day 1: Pemetrexed 500 mg/m² IV followed by carboplatin AUC 5 IV.

Every 21 days: Treatment repeats every 21 days if review and blood tests allow.

Mesothelioma: Usually up to 4-6 cycles unless progression or unacceptable toxicity occurs.

NSCLC: Usually 4-6 cycles, then maintenance pemetrexed (NCCP 00222) where appropriate.

My prescribed supportive medicines / changes to my plan:

Call first; write later. Do not wait for the next appointment or a diary score if a symptom worries you. Follow your oncology team's urgent-call instructions. For a medical emergency in Ireland call 112 or 999.

Scan for your regimen-specific patient portal and visual guide.

Pemetrexed + carboplatin

NCCP 00318 - Cycle 1

Cycle number: _____ Start date: _____ Review date: _____

Current medicines / dose changes: _____

Record the worst symptom in each interval: dates, number of episodes/readings and effect on daily activities. A blank cell means not recorded, not "no symptom".

Symptoms / body area	Days 1-7	Days 8-14	Days 15-21
Blood / infection			
Kidneys			
Nausea / bowel			
Mouth			
Skin			
Infusion / allergy			
Other symptoms			

What happened / what it stopped me doing

Advice received, action taken and follow-up

Call oncology promptly about new or worsening symptoms. Bring this record and your current medicines to review.

Pemetrexed + carboplatin
