NCCP 00588 · clinician draft

Olaparib · adjuvant breast treatment

Breast adjuvant treatment only · NCCP00588h. These materials cover olaparib after treatment for high-risk early breast cancer. Other cancers use different eligibility, duration and follow-up; use the matching NCCP indication and your treating team’s plan.

Supportive prescription draft for review. This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.

- **Olaparib · adjuvant breast treatment · reviewed supportive care** — Oral moderate–high Olaparib (Lynparza)
