Trifluridine/tipiracil (Lonsurf)

NCCP 00382 - Set-up and treatment plan

My treatment plan

Treatment purpose / goals:

My oncology SOS number:

My treating team / hospital:

Medicines: Trifluridine/tipiracil (Lonsurf)

Schedule to confirm with my team

Days 1-5: Take the prescribed dose twice daily.

Days 6-7: No Lonsurf.

Days 8-12: Take the prescribed dose twice daily.

Days 13-28: No Lonsurf; recovery and monitoring period.

Next cycle: A new 28-day cycle starts only if review and blood tests allow.

My prescribed supportive medicines / changes to my plan:

Call first; write later. Do not wait for the next appointment or a diary score if a symptom worries you. Follow your oncology team's urgent-call instructions. For a medical emergency in Ireland call 112 or 999.

Scan for your regimen-specific patient portal and visual guide.
