Carry your treatment details

Breast adjuvant treatment only · NCCP 00588h. These materials cover olaparib after treatment for high-risk early breast cancer. Other cancers use different eligibility, duration and follow-up; use the matching NCCP indication and your treating team’s plan.

Print, cut out and fold. Follow your treating hospital’s contact plan.

SACTCHECK · TREATMENT CARD

Olaparib · adjuvant breast treatment

NCCP 00588 v5b

Take olaparib tablets morning and evening every day. There is no planned week off. Blood-review appointments are usually every four weeks during this one-year breast course.

Prescriber / next review: _____

Contact plan

Oncology team: Insert numbers here · Use your hospital’s opening hours.
Out of hours: Insert numbers here.
Evenings / overnight: agreed out-of-hours service or emergency department.
Emergency: 112 / 999.

Own hospital / contact: _____

Contact the oncology team urgently for fever or feeling acutely unwell, unusual bleeding, new or worsening breathlessness/cough, severe weakness, persistent vomiting or inability to drink. Chest pain, severe breathing difficulty or collapse require emergency help.
