FOLFIRI

FOLFIRI combines irinotecan, folinic acid and fluorouracil. NCCP 00227 covers advanced colorectal cancer, metastatic oesophageal cancer and second-line advanced pancreatic cancer. Your team confirms your indication and treatment aim.

Advanced gastrointestinal cancers · NCCP 00227 v9 · Document revised 4 November 2026

Your personal plan: this is the standard regimen schedule. Your team confirms your prescribed doses, cycles, treatment changes and appointments in your written plan.

My overall treatment

Day 1: irinotecan, folinic acid and fluorouracil, then a 46-hour fluorouracil pump. A cycle lasts 14 days; your team confirms the next treatment.

14-day treatment cycle
Day 1: irinotecan, folinic acid and fluorouracil, then a 46-hour fluorouracil pump. A cycle lasts 14 days; your team confirms the next treatment.

Review
Course length, response scans and next steps follow your individual plan.

A typical 14-day cycle

Day 1	Day 2–3	Day 4–7	Day 8–14
Infusion and pump connection	The pump is delivering treatment	After disconnection	Between visits and the next review

Timing may change after review. Side effects can occur on any day; there are no guaranteed safe days.

My tests and checks

When	What is checked	Timing / reason
Before	**DPD and baseline bloods** Required by regimen	Confirm DPD testing, blood count, kidney and liver results before starting.
During	**Blood count / kidneys / liver** Required by regimen	Before each cycle. Review symptoms and medicines.
After / review	**Recovery, scans / markers** Team-agreed plan	Follow the individual cancer plan; this regimen does not prescribe a universal scan or marker interval.

Between treatments

- Report fever, sudden illness, diarrhoea, mouth pain or poor intake promptly.
- Symptoms can occur during treatment, between visits and after completion.

Confirm your prescription, supportive medicines, tests and working contact numbers.

When to get help

Call 112 / 999 for severe breathing difficulty, severe chest pain, collapse or a seizure.

Call oncology immediately: temperature 37.5°C or above, 36°C or below, shivering or suddenly feeling unwell, even with a normal temperature. Follow your hospital's temperature instructions. If you cannot reach the team, seek urgent medical assessment. Do not wait for the next appointment.

Oncology daytime: 087 12345678 · **Out of hours:** 087 87654321

EXAMPLE ONLY — team must replace both numbers before patient use.

Feasibility build. Clinical, pharmacy and patient/PPI review pending. Your team confirms your personal plan.

What to watch for

You do not need to know which medicine caused a symptom before calling.

1 Hair

Irinotecan

Hair thinning or loss may occur. Ask about support.

2 Mouth

Fluorouracil + folinic acid

Report ulcers or pain affecting eating and drinking.

3 Chest

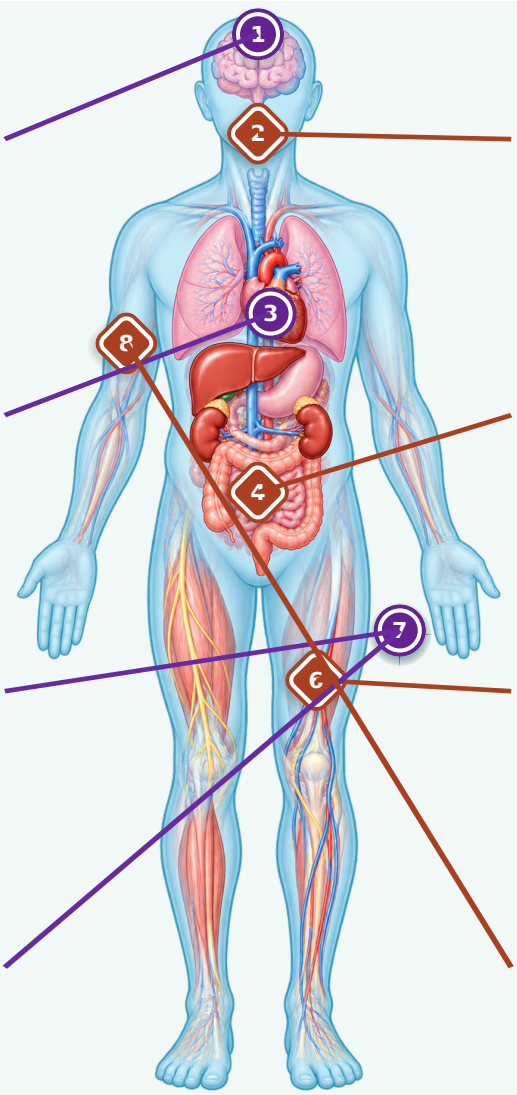

Fluorouracil

New chest pain or breathlessness needs urgent assessment.

4 Bowel

Irinotecan / fluorouracil

Report diarrhoea, increased stoma output or severe abdominal pain.

5 Hands / feet

Fluorouracil

Report painful redness, peeling or loss of hand function.

6 Blood / infection

Chemotherapy

Fever, shivers or sudden illness: call oncology immediately.

7 Skin / hands / feet

Fluorouracil

Report painful skin changes affecting activity.

8 Pump / line

Treatment delivery

Pain, leakage, swelling or poor wound healing needs advice.

Selected effects, not every possible effect or a prediction. Blood-count, skin and line markers are schematic. Number and text carry meaning; colour is decorative.

Contact promptly for new chest symptoms, severe or persistent diarrhoea, reduced urine, inability to drink, severe abdominal pain or a line/pump problem.

BACK / TREATMENT RECORD

My cycle record

Rolling record — follow your agreed treatment plan.

Cycle	Date / initials

My treatment information

Latest treatment date: _____

Plan changed? Ask the team to update this card.

FOLD centre — do not cut

Keep the record accurate

The team dates and initials each recorded treatment unit when complete. A cycle is complete after its final planned dose; a weekly-treatment stamp records that weekly dose. Delays, omitted doses or a changed plan need a note or a replacement card. A stamp does not approve the next treatment. Keep any medicine-specific alert card too.

Put your treatment page on your phone

Scan your QR and check the treatment name. Save that page to your home screen.

iPhone / Safari

Tap Share → Add to Home Screen. Select Open as Web App if offered, then Add.

Android / Chrome

Tap the three-dot menu → Add to Home screen or Install and create shortcut. Choose the shortcut option and confirm.

Menu wording varies. The QR opens information, not a personal record. Paper stamps do not update the website. Check that the saved icon opens the correct treatment.

Your local contacts and resources
