SACTCHECK · TREATMENT CARD

Palbociclib with endocrine therapy

NCCP 00414 v5a

Take palbociclib for 21 days, then have 7 days without palbociclib. The aromatase-inhibitor tablet continues every day, or fulvestrant injections follow their separate schedule. The week off applies to palbociclib, not automatically to the hormone treatment.

Prescriber / next review: _____

Contact plan

Oncology team: Insert numbers here · Use your hospital’s opening hours.
Out of hours: Insert numbers here.
Evenings / overnight: agreed out-of-hours service or emergency department.
Emergency: 112 / 999.

Own hospital / contact: _____

Contact the treatment team promptly if you feel feverish or unwell, have shaking chills or infection symptoms, or develop new cough or breathlessness. Follow the local emergency temperature instructions; do not wait for a planned blood test or for the 38.5°C value used in one clinician dose-adjustment table. Severe breathing difficulty needs emergency care.
