SACTCHECK · REGIMEN-SPECIFIC SACT CONSENT

PROTOTYPE · GOVERNANCE REVIEW REQUIRED

Vandetanib: RET-positive medullary thyroid cancer

Medullary thyroid cancer · NCCP 00242 · version 6 · 28-day cycle

Patient name	DOB	Hospital no.	Date

Treatment context
This treatment aims to slow cancer growth and help control symptoms. Your team explains the expected benefit, uncertainty and alternatives for your situation.

Schedule
Vandetanib 300 mg once daily, continuously, until progression or unacceptable side effects.

1. TREATMENT DISCUSSION

- ☐ Purpose, expected benefit and alternatives explained
- ☐ Indication, medicines, sequence and duration confirmed
- ☐ Blood tests and any individually indicated heart checks discussed
- ☐ Support medicines and phase changes explained
- ☐ Fertility, contraception and breastfeeding discussed where relevant
- ☐ Common, serious and lasting drug-specific risks discussed below
- ☐ Urgent symptoms and local contact details confirmed

2. REGIMEN / AGENT-SPECIFIC MATERIAL RISKS

Vandetanib
KINASE INHIBITOR

- ☐ Heart-rhythm disturbance (QT prolongation and torsades de pointes), fainting
- ☐ Diarrhoea, nausea, reduced appetite and fatigue
- ☐ Rash, sun sensitivity and rare severe blistering skin reactions
- ☐ High blood pressure, bleeding and thyroid hormone changes
- ☐ Rare lung inflammation and neurological syndrome with confusion or seizures
- ☐ Pregnancy and breastfeeding risks; adverse effects may persist after stopping

Discuss treatment aim, expected benefit and uncertainty, alternatives and the option of declining; each medicine's risks, potentially lasting effects, required tests, urgent symptoms, fertility, contraception, pregnancy, breastfeeding and the individual support plan. Carry the manufacturer's patient alert card and receive one with every prescription. Report fainting or palpitations urgently. Check every new medicine for heart-rhythm interactions. Diarrhoea can disturb blood salts and increase rhythm risk. Protect skin from sunlight.

Individual aim / benefit, alternatives, material risks and questions:

3. CONSENT CONFIRMATION

- ☐ Expected benefit, important risks and reasonable alternatives discussed
- ☐ Patient questions invited and answered; patient-specific material risks / priorities considered
- ☐ Emergency contact / toxicity advice and written information offered where appropriate
- ☐ Patient understands consent is voluntary and may be withdrawn

Patient / person giving consent _____ Date _____

Clinician obtaining consent _____ Date _____

Prototype only. This one-page form is a regimen-specific consent aid and requires formal governance, consultant and oncology-pharmacy review before clinical use. The current NCCP regimen, local/national consent policy, current medicine information, patient-specific material risks and clinical judgement remain authoritative.
Base regimen: NCCP 00242 v6.
