SACTCHECK · REGIMEN-SPECIFIC SACT CONSENT

PROTOTYPE · GOVERNANCE REVIEW REQUIRED

Sorafenib: differentiated thyroid cancer

Differentiated thyroid cancer · NCCP 00294 · version 4 · 28-day cycle

Patient name	DOB	Hospital no.	Date

Treatment context
This treatment aims to slow cancer growth and help control symptoms. Your team explains the expected benefit, uncertainty and alternatives for your situation.

Schedule
Sorafenib 400 mg twice daily, every day, until progression or unacceptable side effects.

1. TREATMENT DISCUSSION

- ☐ Purpose, expected benefit and alternatives explained
- ☐ Indication, medicines, sequence and duration confirmed
- ☐ Blood tests and any individually indicated heart checks discussed
- ☐ Support medicines and phase changes explained
- ☐ Fertility, contraception and breastfeeding discussed where relevant
- ☐ Common, serious and lasting drug-specific risks discussed below
- ☐ Urgent symptoms and local contact details confirmed

2. REGIMEN / AGENT-SPECIFIC MATERIAL RISKS

Sorafenib
KINASE INHIBITOR

- ☐ Painful palms and soles (hand-foot skin reaction), rash and hair thinning
- ☐ Diarrhoea, tiredness, reduced appetite and weight loss
- ☐ High blood pressure and thyroid hormone changes
- ☐ Bleeding, heart ischaemia and impaired wound healing
- ☐ Rare bowel perforation, severe liver injury and severe skin reactions
- ☐ Low blood sugar, especially with diabetes treatment; possible effects on fertility and pregnancy

Discuss treatment aim, expected benefit and uncertainty, alternatives and the option of declining; each medicine's risks, potentially lasting effects, required tests, urgent symptoms, fertility, contraception, pregnancy, breastfeeding and the individual support plan. Tell the team before surgery or dental procedures. Report painful palms or soles early; skin care and early dose review can help prevent severe hand-foot reactions.

Individual aim / benefit, alternatives, material risks and questions:

3. CONSENT CONFIRMATION

- ☐ Expected benefit, important risks and reasonable alternatives discussed
- ☐ Patient questions invited and answered; patient-specific material risks / priorities considered
- ☐ Emergency contact / toxicity advice and written information offered where appropriate
- ☐ Patient understands consent is voluntary and may be withdrawn

Patient / person giving consent _____ Date _____

Clinician obtaining consent _____ Date _____

Prototype only. This one-page form is a regimen-specific consent aid and requires formal governance, consultant and oncology-pharmacy review before clinical use. The current NCCP regimen, local/national consent policy, current medicine information, patient-specific material risks and clinical judgement remain authoritative.
Base regimen: NCCP 00294 v4.
