SACTCHECK · TREATMENT PASSPORT

# CAP: advanced salivary gland cancer

## A record of what you experience

One cycle per page. Each medicine has its own symptom table. Mark the worst symptoms since your last review, when they occurred and what they stopped you doing. Overlapping symptoms can be recorded under more than one medicine; you do not have to identify the cause.

These are patient-language severity prompts, not a validated questionnaire or a formal Common Terminology Criteria for Adverse Events (CTCAE) grading tool. Your team assigns the clinical grade. Serious symptoms override the columns: call without waiting to decide a severity level.

Doxorubicin 50 mg/m², cisplatin 50 mg/m² and cyclophosphamide 500 mg/m² on Day 1, repeated every 21 days for up to 6 cycles, stopping earlier for progression or unacceptable side effects.

These pages are reusable recording sheets; the prescribed course length is stated above. Ask for additional sheets as needed.

**Emergency: 112 / 999.** Severe breathing difficulty, collapse, seizure or severe chest pain needs emergency help.

**Contact oncology immediately** for temperature ≥37.5°C or ≤36°C, shivering or suddenly feeling unwell, even with a normal temperature. Follow your own hospital's instructions. If you cannot reach the team, seek urgent medical assessment.

# CAP: advanced salivary gland cancer

Cycle number: _____ Start date: _____ Next review: _____

Record the actual treatment date and any delay.

**Cyclophosphamide** · copy this sheet for another cycle of the same phase.

### Cyclophosphamide · Cytotoxic chemotherapy

| Symptom | None | Mild | Moderate / call | Severe / urgent | Emergency signs |
|---|---|---|---|---|---|
| **Fatigue** | ☐ Usual energy | ☐ Tiredness improves with rest | ☐ Rest does not help; usual tasks affected: call | ☐ Self-care difficult: urgent review | ☐ Collapse: 112/999 |
| **Nausea** | ☐ None | ☐ Queasy but eating and drinking | ☐ Intake reduced: contact the team | ☐ Unable to maintain intake: urgent review | ☐ Collapse / severe dehydration: 112/999 |
| **Bowels** | ☐ Usual pattern | ☐ New change: report | ☐ Persistent diarrhoea / constipation: call | ☐ Blood, severe pain or dehydration: urgent review | ☐ Collapse or severe sudden illness: 112/999 |
| **Mouth soreness / ulcers** | ☐ None | ☐ Mild soreness; eating normally | ☐ Painful; soft food needed: call | ☐ Cannot eat / drink enough: urgent review | ☐ Major breathing difficulty: 112/999 |
| **Bleeding / bruising** | ☐ None | ☐ New small bruise / brief bleed: report | ☐ Repeated bleeding: call today | ☐ Bleeding that will not stop: urgent help | ☐ Heavy bleeding / collapse: 112/999 |

Dates / doses missed or changed / symptoms affecting daily life / questions:

Red flags override the table. Fever, shivers, suddenly unwell, chest symptoms or inability to drink: seek prompt advice. Severe breathing difficulty, collapse or severe chest pain: 112 / 999.
