SACTCHECK · TREATMENT PASSPORT

Gemcitabine alone · non-small-cell lung cancer

A record of what you experience

One cycle per page. Each medicine has its own symptom table. Mark the worst symptoms since your last review, when they occurred and what they stopped you doing. Overlapping symptoms can be recorded under more than one medicine; you do not have to identify the cause.

These are patient-language severity prompts, not a validated questionnaire or a formal Common Terminology Criteria for Adverse Events (CTCAE) grading tool. Your team assigns the clinical grade. Serious symptoms override the columns: call without waiting to decide a severity level.

Gemcitabine is given on Days 1, 8 and 15. Week 4 has no planned dose. Each cycle lasts 28 days. For lung cancer there is no fixed six-cycle limit in this source: continue only while the team considers treatment helpful and tolerable.

These pages are reusable recording sheets; the prescribed course length is stated above. Ask for additional sheets as needed.

Emergency: 112 / 999. Severe breathing difficulty, collapse, seizure or severe chest pain needs emergency help.

Contact oncology immediately for temperature ≥37.5°C or ≤36°C, shivering or suddenly feeling unwell, even with a normal temperature. Follow your own hospital's instructions. If you cannot reach the team, seek urgent medical assessment.

Source reconciled; independent clinical, pharmacy and patient/PPI review pending

Gemcitabine alone · non-small-cell lung cancer

Cycle number: _____ Start date: _____ Next review: _____

Use another record for each new cycle. Record actual dose dates and omitted doses; the record is not a fixed course-length target.

Current 28 day cycle · **Days 1, 8, 15** · copy this sheet for another cycle of the same phase.

Gemcitabine · Chemotherapy

Symptom	None	Mild	Moderate / call	Severe / urgent	Emergency signs
Fatigue	□ Usual energy	□ Tiredness improves with rest	□ Rest does not help; usual tasks affected: call	□ Self-care difficult: urgent review	□ Collapse: 112/999
Nausea	□ None	□ Queasy but eating and drinking	□ Intake reduced: contact the team	□ Unable to maintain intake: urgent review	□ Collapse / severe dehydration: 112/999
Mouth soreness / ulcers	□ None	□ Mild soreness; eating normally	□ Painful; soft food needed: call	□ Cannot eat / drink enough: urgent review	□ Major breathing difficulty: 112/999
Bleeding / bruising	□ None	□ New small bruise / brief bleed: report	□ Repeated bleeding: call today	□ Bleeding that will not stop: urgent help	□ Heavy bleeding / collapse: 112/999

Dates / doses missed or changed / symptoms affecting daily life / questions:

Red flags override the table. Fever, shivers, suddenly unwell, chest symptoms or inability to drink: seek prompt advice. Severe breathing difficulty, collapse or severe chest pain: 112 / 999.
