Zoledronic acid · adjuvant breast treatment

Zoledronic acid by intravenous (IV) infusion once every six months for up to five years, unless progression or unacceptable toxicity changes the plan. The usual source dose is 4 mg, with renal review before prescribing.

BASELINE → TREATMENT → FOLLOW-UP

When checks happen

Relative milestones, not equal time intervals. Your team books tests and reviews results; this map does not confirm completion.

Check	Before starting	First treatment	During treatment	Change / completion	Follow-up
Kidney / calcium	Creatinine, creatinine clearance (CrCl), calcium, Mg / phosphate	Confirm suitable results	Creatinine before every infusion	Review deterioration / recovery	Individual bone/renal plan
Dental / supplements	Dental assessment / prevention	Prescribed calcium and vitamin D	Dental care and symptom review	Plan invasive procedures	Report jaw / thigh symptoms

THE WHOLE TREATMENT JOURNEY

Zoledronic acid · adjuvant breast treatment: treatment and checks

Adjuvant breast cancer · postmenopausal (natural or treatment-induced)

Zoledronic acid by IV infusion once every six months for up to five years, unless progression or unacceptable toxicity changes the plan. The usual source dose is 4 mg, with renal review before prescribing.

Read from left to right. Columns show stages, not equal lengths of time. This is a general plan: no dates or personal information are needed. Your team confirms which steps apply and arranges appointments.

Treatment, tests and reviews across the course

Care / check	Before starting	First treatment	During treatment	Change / completion	Follow-up
Treatment plan NCCP 00545	Endocrine-depleted setting	First infusion ≥15 minutes	Every 6 calendar months	Up to 5 years; review continuation	Bone / cancer follow-up
Kidney / calcium NCCP 00545	Creatinine, CrCl, calcium, Mg / phosphate	Confirm suitable results	Creatinine before every infusion	Review deterioration / recovery	Individual bone/renal plan
Dental / supplements NCCP 00545	Dental assessment / prevention	Prescribed calcium and vitamin D	Dental care and symptom review	Plan invasive procedures	Report jaw / thigh symptoms
Cancer review EARLY	Confirm setting	Agree review plan	Follow the early-breast plan	Next treatment / completion	Agreed surveillance

What each check is for

1 Before treatment

At the next review, ask

- Which treatment phase am I in, and what happens next?
- Which test is expected next, who arranges it, and who explains the result?
- Who should I contact if an expected appointment has not arrived?

This map does not show whether a test has been ordered, booked or completed. Do not wait for a scheduled test if you develop new symptoms.
