SACTCHECK · TREATMENT PASSPORT

Pembrolizumab + paclitaxel + carboplatin AUC6

A record of what you experience

One cycle per page. Each medicine has its own symptom table. Mark the worst symptoms since your last review, when they occurred and what they stopped you doing. Overlapping symptoms can be recorded under more than one medicine; you do not have to identify the cause.

These are patient-language severity prompts, not a validated questionnaire or a formal Common Terminology Criteria for Adverse Events (CTCAE) grading tool. Your team assigns the clinical grade. Serious symptoms override the columns: call without waiting to decide a severity level.

Induction: all three medicines on Day 1 every 21 days for up to four cycles. Maintenance: paclitaxel and carboplatin stop; pembrolizumab alone may continue every 21 days while appropriate. The team agrees duration and review points.

The four pages are reusable recording sheets, not a prescribed four-cycle course. Ask for additional sheets as needed.

Emergency: 112 / 999. Severe breathing difficulty, collapse, seizure or severe chest pain needs emergency help.

Contact oncology immediately for temperature ≥37.5°C or ≤36°C, shivering or suddenly feeling unwell, even with a normal temperature. Follow your own hospital's instructions. If you cannot reach the team, seek urgent medical assessment.

Pembrolizumab · Immunotherapy

Symptom	None	Mild	Moderate / call	Severe / urgent	Emergency signs
Breathing / cough	□ Usual breathing	□ New cough or breathlessness: call promptly	□ Symptoms with usual activity: urgent review	□ Breathless at rest: urgent assessment	□ Severe breathing difficulty / collapse: 112/999
Diarrhoea	□ Usual pattern	□ Up to 3 extra stools above normal	□ 4–6 extra stools/day or at night: call	□ 7+ extra stools/day or dehydration: urgent review	□ Collapse / severe dehydration: 112/999
Skin / nail changes	□ None	□ Mild change: report	□ Pain or daily tasks affected: call	□ Spreading infection or blistering: urgent review	□ Severe illness / collapse: emergency help
Fatigue	□ Usual energy	□ Tiredness improves with rest	□ Rest does not help; usual tasks affected: call	□ Self-care difficult: urgent review	□ Collapse: 112/999

Paclitaxel · Chemotherapy

Symptom	None	Mild	Moderate / call	Severe / urgent	Emergency signs
Numbness / tingling	□ None	□ Mild change; usual tasks unaffected	□ Limits buttons, writing or walking: call	□ Washing, dressing or walking difficult: urgent review	□ Sudden major weakness / paralysis: emergency help
Skin / nail changes	□ None	□ Mild change: report	□ Pain or daily tasks affected: call	□ Spreading infection or blistering: urgent review	□ Severe illness / collapse: emergency help
Fatigue	□ Usual energy	□ Tiredness improves with rest	□ Rest does not help; usual tasks affected: call	□ Self-care difficult: urgent review	□ Collapse: 112/999

Carboplatin · Chemotherapy

Symptom	None	Mild	Moderate / call	Severe / urgent	Emergency signs
Bleeding / bruising	□ None	□ New small bruise / brief bleed: report	□ Repeated bleeding: call today	□ Bleeding that will not stop: urgent help	□ Heavy bleeding / collapse: 112/999
Fatigue	□ Usual energy	□ Tiredness improves with rest	□ Rest does not help; usual tasks affected: call	□ Self-care difficult: urgent review	□ Collapse: 112/999
Numbness / tingling	□ None	□ Mild change; usual tasks unaffected	□ Limits buttons, writing or walking: call	□ Washing, dressing or walking difficult: urgent review	□ Sudden major weakness / paralysis: emergency help

Dates / doses missed or changed / symptoms affecting daily life / questions:

Red flags override the table. Fever, shivers, suddenly unwell, chest symptoms or inability to drink: seek prompt advice. Severe breathing difficulty, collapse or severe chest pain: 112 / 999.
