# Atezolizumab + carboplatin + etoposide

## A record of what you experience

One cycle per page. Each medicine has its own symptom table. Mark the worst symptoms since your last review, when they occurred and what they stopped you doing. Overlapping symptoms can be recorded under more than one medicine; you do not have to identify the cause.

These are patient-language severity prompts, not a validated questionnaire or a formal Common Terminology Criteria for Adverse Events (CTCAE) grading tool. Your team assigns the clinical grade. Serious symptoms override the columns: call without waiting to decide a severity level.

Induction: atezolizumab and carboplatin on Day 1, with etoposide on Days 1–3, repeated every 21 days for up to four cycles. Maintenance: carboplatin and etoposide stop; atezolizumab alone continues every 21 days while appropriate. The fourth cycle ends about 12 weeks after starting if there are no delays; maintenance has no fixed total duration in this regimen.

The four pages are reusable recording sheets, not a prescribed four-cycle course. Ask for additional sheets as needed.

**Emergency: 112 / 999.** Severe breathing difficulty, collapse, seizure or severe chest pain needs emergency help.

**Contact oncology immediately** for temperature ≥37.5°C or ≤36°C, shivering or suddenly feeling unwell, even with a normal temperature. Follow your own hospital's instructions. If you cannot reach the team, seek urgent medical assessment.

### Atezolizumab · Immunotherapy

| Symptom | None | Mild | Moderate / call | Severe / urgent | Emergency signs |
|---|---|---|---|---|---|
| **Breathing / cough** | □ Usual breathing | □ New cough or breathlessness: call promptly | □ Symptoms with usual activity: urgent review | □ Breathless at rest: urgent assessment | □ Severe breathing difficulty / collapse: 112/999 |
| **Diarrhoea** | □ Usual pattern | □ Up to 3 extra stools above normal | □ 4–6 extra stools/day or at night: call | □ 7+ extra stools/day or dehydration: urgent review | □ Collapse / severe dehydration: 112/999 |
| **Skin / nail changes** | □ None | □ Mild change: report | □ Pain or daily tasks affected: call | □ Spreading infection or blistering: urgent review | □ Severe illness / collapse: emergency help |
| **Fatigue** | □ Usual energy | □ Tiredness improves with rest | □ Rest does not help; usual tasks affected: call | □ Self-care difficult: urgent review | □ Collapse: 112/999 |

### Carboplatin · Chemotherapy

| Symptom | None | Mild | Moderate / call | Severe / urgent | Emergency signs |
|---|---|---|---|---|---|
| **Nausea** | □ None | □ Queasy but eating and drinking | □ Intake reduced: contact the team | □ Unable to maintain intake: urgent review | □ Collapse / severe dehydration: 112/999 |
| **Fatigue** | □ Usual energy | □ Tiredness improves with rest | □ Rest does not help; usual tasks affected: call | □ Self-care difficult: urgent review | □ Collapse: 112/999 |
| **Breathing / cough** | □ Usual breathing | □ New cough or breathlessness: call promptly | □ Symptoms with usual activity: urgent review | □ Breathless at rest: urgent assessment | □ Severe breathing difficulty / collapse: 112/999 |

### Etoposide · Chemotherapy

| Symptom | None | Mild | Moderate / call | Severe / urgent | Emergency signs |
|---|---|---|---|---|---|
| **Mouth soreness / ulcers** | □ None | □ Mild soreness; eating normally | □ Painful; soft food needed: call | □ Cannot eat / drink enough: urgent review | □ Major breathing difficulty: 112/999 |
| **Nausea** | □ None | □ Queasy but eating and drinking | □ Intake reduced: contact the team | □ Unable to maintain intake: urgent review | □ Collapse / severe dehydration: 112/999 |
| **Diarrhoea** | □ Usual pattern | □ Up to 3 extra stools above normal | □ 4–6 extra stools/day or at night: call | □ 7+ extra stools/day or dehydration: urgent review | □ Collapse / severe dehydration: 112/999 |
| **Fatigue** | □ Usual energy | □ Tiredness improves with rest | □ Rest does not help; usual tasks affected: call | □ Self-care difficult: urgent review | □ Collapse: 112/999 |

Dates / doses missed or changed / symptoms affecting daily life / questions:

Red flags override the table. Fever, shivers, suddenly unwell, chest symptoms or inability to drink: seek prompt advice. Severe breathing difficulty, collapse or severe chest pain: 112 / 999.
