Keep the record accurate

The team dates and initials each recorded treatment unit when complete. A cycle is complete after its final planned dose; a weekly-treatment stamp records that weekly dose. Delays, omitted doses or a changed plan need a note or a replacement card. A stamp does not approve the next treatment. Keep any medicine-specific alert card too.

Menu wording varies. The QR opens information, not a personal record. Paper stamps do not update the website. Check that the saved icon opens the correct treatment.
