National Cancer Control Programme (NCCP) 00315 · clinician draft

TPF induction: docetaxel, cisplatin and fluorouracil

> **Supportive prescription draft for review.** This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.

- **Induction Day 1 · docetaxel / cisplatin / fluorouracil** — high
  Docetaxel + Cisplatin + Fluorouracil
- **Induction Days 2–4 · fluorouracil continues** — high
  Fluorouracil
- **After induction · multidisciplinary team (MDT) selects definitive treatment** — Minimal
