SACTCHECK · REGIMEN-SPECIFIC SACT CONSENT

PROTOTYPE · GOVERNANCE REVIEW REQUIRED

Bevacizumab 5 mg/kg every 14 days

NCCP 00813: recurrent malignant glioblastoma; off-label indication. · NCCP 00813 · version 2 · 14-day cycle

Patient name	DOB	Hospital no.	Date

Treatment context
Bevacizumab is a targeted antibody used in this NCCP regimen for recurrent glioblastoma. Discuss the goals for tumour-related symptoms and control, uncertainty about benefit, and how this off-label treatment fits your priorities.

Schedule
Bevacizumab is given into a vein on Day 1 of each 14-day cycle. Treatment continues while benefit and tolerance support it, with review before each infusion. No fixed total number of cycles is specified.

1. TREATMENT DISCUSSION

- ☐ Purpose, expected benefit and alternatives explained
- ☐ Indication, medicines, sequence and duration confirmed
- ☐ Blood tests and any individually indicated heart checks discussed
- ☐ Support medicines and phase changes explained
- ☐ Fertility, contraception and breastfeeding discussed where relevant
- ☐ Common, serious and lasting drug-specific risks discussed below
- ☐ Urgent symptoms and local contact details confirmed

2. REGIMEN / AGENT-SPECIFIC MATERIAL RISKS

Bevacizumab

TARGETED ANTIBODY GIVEN INTO A VEIN

- ☐ High blood pressure and rare PRES neurological syndrome
- ☐ Protein in the urine and kidney injury
- ☐ Bleeding, including serious internal bleeding
- ☐ Blood clots, stroke or heart attack
- ☐ Slow wound healing and wound complications
- ☐ Gastrointestinal perforation or fistula
- ☐ Infusion reactions and rare severe allergy
- ☐ Fertility effects and harm to a pregnancy

Discuss the exact diagnosis, treatment goal, evidence limits, alternatives and burdens; medicine-specific risks, monitoring, fertility and pregnancy precautions; any unlicensed supply or off-label use; and practical support. Keep steroid and seizure plans separate from anticancer treatment.

Individual aim / benefit, alternatives, material risks and questions:

3. CONSENT CONFIRMATION

- ☐ Expected benefit, important risks and reasonable alternatives discussed
- ☐ Patient questions invited and answered; patient-specific material risks / priorities considered
- ☐ Emergency contact / toxicity advice and written information offered where appropriate
- ☐ Patient understands consent is voluntary and may be withdrawn

Patient / person giving consent _____ Date _____

Clinician obtaining consent _____ Date _____

Prototype only. This one-page form is a regimen-specific consent aid and requires formal governance, consultant and oncology-pharmacy review before clinical use. The current NCCP regimen, local/national consent policy, current medicine information, patient-specific material risks and clinical judgement remain authoritative.
Base regimen: NCCP 00813 v2.
