NCCP 00215 · clinician draft

Bevacizumab 15 mg/kg · lung treatment component

> **Treatment scope · NCCP 00215** Lung context only. Confirm whether the platinum pathway or EGFR/erlotinib pathway applies. This guide does not supply the partner dose or replace its safety assessment.

> **Supportive prescription draft for review.** This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.

- **Bevacizumab lung component · support plan** — Minimal for bevacizumab only
  Bevacizumab
