NCCP 00565 · clinician draft

Dacomitinib monotherapy

Which treatment this guide covers NCCP 00565a covers first-line treatment of adults with locally advanced or metastatic NSCLC with an activating EGFR mutation. This is daily dacomitinib alone; it is not an adjuvant regimen or a chemotherapy combination.

Supportive prescription draft for review. This is a regimen template. It is not an issued patient prescription; individual review and completion are required.

Separate scripts for each phase

Choose the active phase in the clinician workflow. Each script has its own medicines, timing and review checks.

- **Dacomitinib alone · daily oral treatment** — Minimal to low (oral)
  dacomitinib
