

Modified FOLFOX-6

NCCP 00209 - Set-up and treatment plan

My treatment plan

Treatment purpose / goals:

My oncology SOS number:

My treating team / hospital:

Medicines: Oxaliplatin - Folinic acid - 5-fluorouracil (5-FU)

Schedule to confirm with my team

Day 1: Oxaliplatin and folinic acid are given by drip, then 5-FU is started.

Days 1-3: A portable pump gives 5-FU continuously for about 46 hours.

Around day 3: Pump disconnect. Follow your local line and pump instructions.

Days 4-14: Recovery and monitoring. Symptoms can occur on any day.

Day 15: Next cycle if review and blood tests allow.

My prescribed supportive medicines / changes to my plan:

Call first; write later. Do not wait for the next appointment or a diary score if a symptom worries you. Follow your oncology team's urgent-call instructions. For a medical emergency in Ireland call 112 or 999.

Scan for your regimen-specific patient portal and visual guide.

Modified FOLFOX-6

NCCP 00209 - Cycle 1

Cycle number: _____ Start date: _____ Review date: _____

Current medicines / dose changes: _____

Record the worst symptom in each interval: dates, number of episodes/readings and effect on daily activities. A blank cell means not recorded, not "no symptom".

Symptom / body system	Days 1-7	Days 8-14	Days 15-14
Mouth / throat			
Heart / breathing			
Blood / infection			
Stomach / bowel			
Hands / nerves			
Feet / nerves			
Skin / mouth			
Line / home pump			

What happened / what it stopped me doing

Advice received, action taken and follow-up

Call oncology promptly about new or worsening symptoms. Bring this record and your current medicines to review.

Modified FOLFOX-6

NCCP 00209 - Cycle 2

Cycle number: _____ Start date: _____ Review date: _____

Current medicines / dose changes: _____

Record the worst symptom in each interval: dates, number of episodes/readings and effect on daily activities. A blank cell means not recorded, not "no symptom".

Symptom / body system	Days 1-7	Days 8-14	Days 15-14
Mouth / throat			
Heart / breathing			
Blood / infection			
Stomach / bowel			
Hands / nerves			
Feet / nerves			
Skin / mouth			
Line / home pump			

What happened / what it stopped me doing

Advice received, action taken and follow-up

Call oncology promptly about new or worsening symptoms. Bring this record and your current medicines to review.

Modified FOLFOX-6

NCCP 00209 - Cycle 3

Cycle number: _____ Start date: _____ Review date: _____

Current medicines / dose changes: _____

Record the worst symptom in each interval: dates, number of episodes/readings and effect on daily activities. A blank cell means not recorded, not "no symptom".

Symptom / body system	Days 1-7	Days 8-14	Days 15-14
Mouth / throat			
Heart / breathing			
Blood / infection			
Stomach / bowel			
Hands / nerves			
Feet / nerves			
Skin / mouth			
Line / home pump			

What happened / what it stopped me doing

Advice received, action taken and follow-up
